Plan Description	a) This is a non-linked, life, individual, non-participating, single/limited/regular premium payment, savings plan available on single and joint life basis. b) The plan provides death benefit during the Policy Term (PT) (under all variants), maturity benefit (under all Variant), Income Benefit after Premium Payment Term (PPT) plus Deferment Period (DP) (under Variants 1, 2, 3 ,4 & 6) and surrender value (under all variants). All these benefits are detailed further in the sections below.

Variants	Death Benefit during PT	Income Benefit after deferment period	Lumpsum Benefit at Maturity	Surrender during PT
Variant 1, 2, 3, 4	Yes (by Default, in monthly income for 5 years)	Yes	No	Yes
Variant 5	Yes (by Default, in Lumpsum)	No (option: customer can take Lumpsum in installments for 5 / 10 years)	Yes	Yes
Variant 6	Yes (by default in instalments during the Death Benefit Instalment Period & ROP at the end of Death Benefit Instalment Period)	Yes	Yes (at the end of the Income Period)	Yes

c) The product has six (6) variants. i) Variant 1 – Lifelong Income: 1. The variant has a limited/regular premium payment option with Single life. The life cover is available during the policy term. On death of the life assured, the death benefit in instalments (as mentioned in the Benefits section below) will be paid, the policy will be terminated, and no further benefit is payable

2. At the end of the deferment period, provided the life assured is alive then, the Income Benefit is paid as instalments over the Income Period up to age 99 years of the life assured. This variant has a Return of Premiums (ROPs) benefit, which will be paid at the end of the Income Period, i.e. Policy term also, provided the life assured is alive then (ROP will be paid along with last Income Installment if the Income Installments are not preponed).However, if the Income Installments are preponed it will be paid at the end of the Income Period.

3. The Income Period will start after the end of deferment period, and Income Instalments are paid provided the life assured is alive at each instalment.

4. The Income Period always is up to age 99. (calculated as per last birthday) The Income Period: PT minus PPT minus deferment period (if any).

5. A constant (level) Income Instalment will be paid through-out the Income Period. 6. The maturity Benefit will be Return of Premiums plus Last Income Instalment (if not preponed)

For POS channel	¬ Maximum Maturity Age shall be 65 years ¬ Only Single life will be available ¬ Maximum Policy Term is 20 years. ¬ Maximum Sum Assured is Rs. 25 lacs
Options available under the product	a) Option to take the yearly Income Instalments in other instalment frequencies (only in Variants 1 to 4 & 6) and Death Benefit Instalments (only in Variants 6) The default option in the product is annual Income Instalment. But the policyholder will have an option to take the same in other-than-yearly instalments. The Income Installment frequency has to be chosen at inception. However, the policy holder will have an option to change the Income Instalment frequency once again during the policy term but before the income period starts. He can choose half-yearly, quarterly or monthly i) As per the Income Instalment frequency chosen by the policyholder, the instalments will be paid-out at the end of year, half-year, quarter or month from the end of the policy term, and at every subsequent half-year, quarter or month respectively. The half-yearly, quarterly or monthly installment will be arrived using the frequency factors given in above section "Income Instalments Frequency", which will be applied on the yearly installment. The policyholder will not have the flexibility to change this option during income period Death Benefit Instalment: As on the date of death, and at every subsequent half-year, quarter or month respectively. b) Option to change the date of Income Instalment (only in Variants 1 to 4 & 6) The Income Installment date has to be chosen at inception. However, the policy holder will have an option to change the Income Instalment date any time (no restrictions on number of changes) during the policy term but before the income period starts. Income Instalment date cannot be changed during the Income Period. The default option in the product is Income Instalment become due in arrear, i.e., one year after the end of policy term. But the policyholder will have an option to prepone the start of Income Installments by a maximum of 365 days, still within the Income Period. In any case the Income Installments (opted in any frequency) cannot be postpone from the due date. For Ex: - In case of yearly Income Instalments A policy is issued on 1st Jan 2021 with a policy term of 10 years. The default first yearly Income Installment will be payable on 1st Jan 2032. The policy holder will have an option to prepone the Income Installment date upto 1st Jan 2031 (Maximum of 365 days within the Income Period). In case of monthly Income Instalments A policy is issued on 1st Jan 2021 with a policy term of 10 years. The default first monthly Income Installment will be payable on 1st Feb 2031. The policy holder will have an option to prepone the Income Installment date upto 1st Jan 2031.
